Level Up In Life – coming soon!

Aspire Higher are thrilled to announce the imminent arrival of our exciting, fun new edutainment game, Level Up In Life. Playing the game gives students of all ages a chance to take a journey from Level 3 qualifications (A levels and BTEC) through choosing a university course, completing their degree and getting their start in a graduate career.

Along the way, they get a chance to practise avoiding distractions (and practise their concentration at the same time!), to solve typical dilemmas they can come across in student life and find out about a wide range of possible careers they might never have considered. All without realising they're learning!

Level Up in Life will be hosted on our website so please watch for further announcements there!

LEVEL UP
in life

Free edutainment resource

Educate young people on options and pathways into HE and how they link to careers.
